**PIPERONYL BUTOXIDE:
CARCINOGENICITY/
ONCOGENICITY:** Marginally higher incidences of benign liver tumors in mice were observed following lifetime high dose exposures to PBO. The significance of these observations is questionable and under review. The doses at which tumors were observed for PBO greatly exceeded potential human exposure from labeled uses. Doses at which these effects were observed greatly exceeded anticipated human dietary intake. At anticipated dietary exposure levels, it is highly unlikely that this product will result in carcinogenic effects.

11.3. CARCINOGENICITY: This product contains one or more substances which are classified by IARC as carcinogenic to humans (Group I), probably carcinogenic to humans (Group 2A) or possibly carcinogenic to humans (Group 2B).

CHEMICAL NAME	ACGIH	IARC	NTP	OSHA
Permethrin 52645-53-1	-	Group 3	-	-
Piperonyl Butoxide (PBO) 51-03-6	-	Group 3	-	-

IARC (International Agency for Research on Cancer):

Not classifiable as a human carcinogen.

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.
